Arnold Schwarzenegger's best lines ever! Most of the files in this collection were compiled during a contest Arnold Schwarzenegger hosted in 2004, where he and a bunch of his production team were asked to come up with some of his best lines from his movies. The collection covers many subjects such as his love for women, his kids, nature, etc. We tried to cover as many topics as possible, so that you can listen to them in any order. The recordings were extracted from the movies in various conditions: from the theatrical version, a VCD, DVD, or from a TV show. Each recorded file has been sent to wave:quality=best, -, or - (if the voice was in a tape). We have not identified these recordings, nor have we listened to them for their quality. The copyright for the material has been obtained by us for purposes of creating the collection.
